Subject: URGENT ALERT: Resurgence of lethal police violence, torture, and widespread impunity in Madagascar

To the Amnesty International Team,

The **Debout pour la Justice** collective is issuing this urgent alert to request your international action and advocacy regarding a series of extrajudicial executions and grave human rights violations perpetrated by security forces in Madagascar.

We wish to report a pattern of recent, documented cases demonstrating that state violence has become repetitive and structural:

- **September 2025 (Diego Suarez):** Three young men were shot dead by law enforcement. The case remains entirely unaddressed, illustrating the passivity of judicial authorities toward police crimes.
- **April 2026 (Antalaha):** The Gendarmerie fatally shot a young man. In the same context, a young girl suffered an alleged rape by officials in positions of authority.
- **May 5, 2026 (Ambanja):** An 18-year-old man, Zidane, was arrested. He was brutally tortured during his time in custody before being executed by police gunfire.

This recurring pattern of arrests followed by torture and death by gunfire testifies to a total disregard for human life and a deeply rooted culture of impunity within the

Malagasy security forces. Families are living in terror, and the national justice system is failing in its duty to protect citizens.

We urgently request Amnesty International to:

- **Launch an International Urgent Action (UA)** to denounce the killing of Zidane and the preceding cases;
- **Lead a public pressure campaign** on the Malagasy government to immediately end extrajudicial executions;
- **Demand transparent judicial proceedings** against the officers involved in the events of September 2025 (Diego Suarez), Antalaha, and Ambanja;
- **Provide visible support** to human rights defenders and the victims' families who face severe risks by speaking out.

We hold evidence and contacts that we are ready to share with your researchers for verification.

Thank you for your unwavering dedication to justice and human dignity.

In solidarity,

For the Debout pour la Justice Collective Madagascar,

Dr. MAMILAZA Novario, President

Mr. ANDRIAMANESY Brian, General Secretary
